Question1: All land owners should be required to pay taxes on the land at purchase price. For example, we have outsiders who do not even want to farm the land and pay such a high price for the land with the intentions of reselling it to others for hunting etc. The purchaser did not record the land sale until after one year, so they would not have to pay the taxes on the high price of the land.

Question2: We need country of origin on our animals and grains.

Question3:

Question4: Pay the farmers for good conservation practices and the loss of income from good practices.

Question5: Continue to assist with the rural water systems. We still do not have rural water. Also continue with the assistance with electrical production. Please do not commercialize the electrical plants.

Question6:
